DATA NOTES

UK only. This data excludes mandatory contributions relating to planning. Staff time relates to staff employed directly or contractually at British Land's Head Office. Staff and supplier time covers time spent on voluntary activities during paid working hours only. In-kind contributions are based on cost rather than commercial value, calculated according to London Benchmarking Group guidelines. Fundraising includes Head Office staff payroll giving of £10,164 but excludes British Land match giving. External funding for local training excludes community training for those already in employment. The reduction in cash donations is largely due to our sustainability exhibition not running this year, following an investment of £58,562 last year. Community investment 2008/09 figures were restated to reflect improvements in data comprehensiveness.

DATA NOTES

UK only. Expenditure on community activity or improvements agreed through the planning process. This excludes 'voluntary' community investment as reported in Figure 7.1. Contributions decreased in 2009/10 due to a reduction in development activity, with much associated investment for active projects taking place in previous years. Data covers approximately 90% of UK.
