

Winter update 2009

Powerleague comes to Regent's Place

A state of the art football centre in London's West End is now open for bookings at Regent's Place.

The centre offers six outdoor, floodlit 5-a-side pitches and one 7-a-side pitch, featuring the same FIFA approved fifth generation rubber-crumb playing surface you will find at many premier ship clubs. This is ideal for training and games.

Current players include employees from occupiers at Regent's Place, such as Abbey, Capital One, HMRC and WS Atkins. British Land also sponsors a local football academy for five to 11 year olds, as well as providing free use of pitches through Powerleague.

"We are absolutely chuffed that British Land came through this way. Their provision of floodlit pitches through Powerleague means we can continue the afternoon training, and that the best young talent in the area can progress their skills even further."

- Pro Academy coach, Dave Clifford

"This will be just like playing at the Arsenal stadium!"

- Six-year old Cameron

"I am delighted that Pro Academy has a new and safe place to train with a proper playing surface. It is brilliant that British Land can help the local community in this way and we really value their support."

- Parent, John Preus

Over 80 hours of free use for community groups each week

Over 1 million games of football are played at Powerleague every year

Powerleague Regent's Place provides the option of competitive league matches, corporate tournaments and social play.

This new centre is located on the site of the next phase of the Regent's Place masterplan development, to the east of Regent's Park. The pitches are to the north side of the Euston Tower on Euston Road. The entrance to the venue is on the corner of Euston Road and Hampstead Road.

“We would like to get local kids involved playing football as easily and often as possible – we are glad British Land helped to make this happen.”

- Manager of Powerleague Regent's Place, Craig Phillips
